

Get On

Yello

I want you to realize
Do you know you make me rise?
You make me talking to the sky
Look at you can mystify

I want you to exercise
You should know you hypnotize
Pictures, mirrors all around
Passion, love, lost and found

Get on... Take me
Get on... Right now
Get on... Take me
Get on... Right now

I want you to exercise
You should know you hypnotize
Pictures, mirrors all around
Passion, love, lost and found

Get on... Take me
Get on... Right now
Get on... Take me
Get on... Right now

I want you to realize
Do you know you make me rise?
You make me talking to the sky
Look at you can mystify

Get on... Take me
Get on... Right now
Get on... Take me
Get on... Right now
