

Tremendous Pain

Yello

Oh baby, show me the way
To hell and heaven
Oh baby, how do you spell
Suite 907
And I say
Eight, six, five, four
Oh baby I can't take it no more
Play your melody, your tune is divine
Play your song, your beat is mine
Tremendous pain

Love, heaven, submission and more
Love, hell, in room 904

Stormy weather
Lovely rain
No moon in the city
Shining streets
Friday night
No mercy, no pity

I hide in my church
You scream 909
Your word is my bible
Your beat is divine
Suite 909
Love, heaven, submission and more
Love, hell, in room 904

Tremendous pain

Your blessing with an easy touch
Your fantasy, I need it so much
I'll hide in my church
I'll float on my mine
Your words are my bible
Your beat is divine
Eight, six, five, four
Oh baby, give me some more
Tremendous pain

Love, heaven, submission and more
Love, hell, in room 904

Tremendous pain
Tremendous pain
Eight, six, five, four
Oh baby, give me some more
