

## Never Dies

Yellow Claw

We were raised in the street  
So we do what we want  
And we say how we feel  
If you like it or not  
When you see us come in  
You know we're rolling deep  
We make noise, stomp our feet  
If you like it or not

Play with fire, you're gonna get burned  
Say what you want, me no really concerned  
Talk is cheap and we always laugh last  
Say it to our face, no you never gon' do that  
That  
You'll never do that  
Say it to our face, no you never do that

We are young so we're living our lives  
Do whatever we like, no we're never gon' die  
We gon' rise, let the fire burn high  
Middle finger in the sky, no we're never gon' die

They give us looks that kill  
But we're chasing the thrill  
So we never gon' stop  
Never will drop  
We're just keeping it trill  
And we're chasing them bills  
But they think that we high-igh  
High off them pills

Play with fire, you're gonna get burned  
Say what you want, me no really concerned  
Talk is cheap and we always laugh last  
Say it to our face, no you never gon' do that  
That  
You'll never do that  
Say it to our face, no you never do that

We are young so we're living our lives  
Do whatever we like, no we're never gon' die  
We gon' rise, let the fire burn high  
Middle finger in the sky, no we're never gon' die
