We selling kush, not white, boy  
See my plug is a white boy  
We selling kush, not white, boy

Yeah, my trap going techno  
Yeah, my trap going techno  
Yeah, my trap going techno  
Yeah, my trap going techno  
Got the party jumping like, got the party jumping like  
Got the party jumping like, got the party jumping like  
Jumping like, jumping like, jumping like, jumping like  
Like, like, like, like trap going techno

I got the club jumping like a thousand jumping jacks (you know)  
Spending money, see me burning through these oven racks  
The club is packed front to back, man, I'm loving that (you know)  
And all these ladies want my babies, that's a fucking fact  
See the club is in molly's world  
I think your girl geeking on that white, girl  
See the club is in molly's world  
I think your girl geeking on that white, girl

Yeah, my trap going techno  
Yeah, my trap going techno  
Yeah, my trap going techno  
Yeah, my trap going techno  
Got the party jumping like, got the party jumping like  
Got the party jumping like, got the party jumping like  
Jumping like, jumping like, jumping like, jumping like  
jumping like, jumping like trap going techno
