

We Made It

Yellow Claw

No time for haters, I see you later
Try to put up barriers
But I never get through the bitchy fake girls
I'm lying to them yeah, I'm lying to them yeah

When they're screaming out your name, everyone in the crowd
You know that you made it
Like a king on a throne, baby you wear the crown

That's when you know that you made it (oh oh oh)
You know that you made it (oh oh oh)
You know that you made it (oh oh oh)
You know that you made it (oh oh oh)

When the [?] try to pull you down
Down cause they're jealous, you know
Keep you're head up to the heavens now
Now they're just jealous, you know

Never forget all those who helped me down
Those shots they love me to drown
Stronger than ever I'm holding my brow
Who's laughing now, yeah, who's laughing now

When they're screaming out your name, everyone in the crowd
You know that you made it
Like a king on a throne, baby you wear the crown

That's when you know that you made it (oh oh oh)
You know that you made it (oh oh oh)
You know that you made it (oh oh oh)
You know that you made it (oh oh oh)
