

# City of Devils

Yellowcard

Man once sang to me  
Look at you saving the world on your own  
And I wonder how things gonna be  
'Cause the time here it passes so slow  
In a city of devils we live  
A city of devils we live  
Find somebody to learn  
Boy you gotta love someone more than yourself  
I can feel the fire of the city lights burn  
It's hard to find angels in hell

Flying along, and I  
Feel like I don't belong and I,  
Can't tell right from the wrong, why  
Have I been here so long

In a city of devils we live  
A city of devils we live

Questions I can't seem to find  
To the answers I already have  
And you can't see the sky here at night  
So I guess I can't make my way back

Flying along, and I  
Feel like I don't belong and I,  
Can't tell right from the wrong, why  
Have I been here so long

What if I wanted you here right now  
Would you fall in the fire burn me down  
If I wanted you here right now  
Would you fall in the fire burn me down  
If I wanted you here right now

In a city of devils we live  
In a city of devils we live  
A city of devils we live  
In a city of

Flying along, and I  
Feel like I don't belong and I,  
Can't tell right from the wrong, why  
Have I been here so long

I don't belong  
Don't belong  
I've been here too long  
Too long
