

# Make Me So

Yellowcard

Turn around before you go  
The look in your eyes is letting me know  
I hear you breathing out  
My house of cards is coming down  
I thought we were alive  
Thought it was like when planets align  
You dreamt of some better place  
Some better love with some better name

Why, why do you make me so?  
Why, why do you let me go?

Close calls, hang by a thread  
I never could forget what you said  
Too late, don't want to be saved  
These are the choices that we've gotta make  
Truth is the world's gonna spin  
With or without you, again and again  
If I ever escape, I'm gonna love and give it a name

Why, why do you make me so?  
Why, why do you let me go?  
Why do I lose my head? You make me so  
Why do I lose myself? You let me go

You dreamt of some better place  
Some better love, or some better name  
If I ever escape, I'm gonna love and give it a name

Why, why do you make me so?  
Why, why do you let me go?  
Why do I lose my head? You make me so  
Why do I lose myself? You let me go

Why do you make me so?  
Why do you make me so?  
Why do you let me go?  
Why do you let me go?
