

## My Mountain

Yellowcard

I am on my mountain  
I am there with her  
I can see it all so clear  
I am young again up here

I can't come back from where I've gone, but I'll be close  
I left myself in every song and every note  
And if you need me, I will never be too far  
I'm always with you, like the child in your heart  
Yeah!

I have found my mountain  
I can be with her  
When I finally came across, I recovered all I lost

I can't come back from where I've gone, but I'll be close  
I left myself in every song and every note  
And if you need me, I will never be too far  
I'm always with you, like the child in your heart  
Yeah!

I can't come back from where I've gone, but I'll be close  
I left myself in every song and every note  
And if you need me, I will never be too far  
I'm always with you like the child in your heart

I am on my mountain  
I am there with her  
I have found my mountain  
I can be with her  
Be with her
