

# Shadows And Regrets

Yellowcard

1. I'm back, back in town, and everything has changed.  
I feel, feel let down, the faces stay the same.  
I see, see shadows of who we used to be.  
When I drive, drive so slow through this memory.

R: When we were only kids, and we were best of friends,  
And we hoped for the best, and let go of the rest.

2. I heard, heard myself say things I take back.  
If I could, could re-tell, and make these stories last.  
I see, see shadows of who we'll always be.  
When I drive, drive these roads that made our memories.

R: And we were only kids, and we were best of friends,  
And we hoped for the best, and let go of the rest.  
The shadows and regrets, let go of the rest.

\*: Everything has changed, the faces stay the same.  
Everything has changed, the faces stay the same.

R: When we were only kids, and our time couldn't end,  
And how tall did we stand, with the world in our hands.  
And we were only kids, and we were best of friends,  
And we hoped for the best, and let go of the rest.  
The shadows and regrets, let go of the rest.  
The shadows and regrets, let go of the rest.
