## **Sure Thing Falling**

Yellowcard

He likes vampires and hit list radio But turns it off when he hears this one song he knows And you breathe the windows down You're driving I-4 as you make your way back home Ride in silence because he will not let go And you breathe the windows down It's a new place that you have found

I've been up late writing books All about heroes and crooks One of them saves you from this The other one steals you and then All sure things fall All sure things fall

Do you remember how we used to get so high It didn't work at first we tried it two more times And we could breathe the windows down I was thinking of the temperature outside Cool like the water that was running from our eyes And we could breathe the windows down It's a new place that we have found

I've been up late writing books All about heroes and crooks One of them saves you from this The other one steals you and then All sure things fall All sure things fall

He can take you all the way to church this time But don't forget you summed it up in 50 lines

I've been up late writing books All about heroes and crooks One of them saves you from this The other one steals you Of all of the places I looked And all of the pictures I took One of them's here with me now Finally finding out how... sure things fall All sure things fall
