

# View from Heaven

Yellowcard

I'm just so tired  
Won't you sing me to sleep  
And fly through my dreams  
So I can hitch a ride with you tonight  
And get away from this place  
Have a new name and face  
I just ain't the same without you in my life

Late night drives, all alone in my car  
I can't help but start  
Singing lines from all our favorite songs  
And melodies in the air  
Singin' life just ain't fair  
Sometimes I still just can't believe you're gone

And I'm sure the view from heaven  
Beats the hell out of mine here  
And if we all believe in heaven,  
Maybe we'll make it through one more year  
Down here

Feel your fire,  
When its cold in my heart  
And things sorta start  
Remindin' me of my last night with you  
I only need one more day  
Just one more chance to say  
I wish that I had gone up with you too

And I'm sure the view from heaven  
Beats the hell out of mine here  
And if we all believe in heaven  
Maybe we'll make it through one more year  
Down here  
You won't be comin' back  
And I didn't get to say goodbye (goodbye)  
I really wish I got to say goodbye

And I'm sure the view from heaven  
Beats the hell out of mine here  
And if we all believe in heaven  
Maybe we'll make it through one more year  
I hope that all is well in heaven (well in heaven)  
Cuz it's all shot to hell down here (we need you)  
I hope that I find you in heaven  
Cuz I'm so...  
Lost without you down here

You won't be coming back  
And I didn't get to say goodbye (goodbye)  
I really wish I got to say gooooodbye
