

View from Heaven

Yellowcard

I'm just so tired
Won't you sing me to sleep
And fly through my dreams
So I can hitch a ride with you tonight
And get away from this place
Have a new name and face
I just ain't the same without you in my life

Late night drives, all alone in my car
I can't help but start
Singing lines from all our favorite songs
And melodies in the air
Singin' life just ain't fair
Sometimes I still just can't believe you're gone

And I'm sure the view from heaven
Beats the hell out of mine here
And if we all believe in heaven,
Maybe we'll make it through one more year
Down here

Feel your fire,
When its cold in my heart
And things sorta start
Remindin' me of my last night with you
I only need one more day
Just one more chance to say
I wish that I had gone up with you too

And I'm sure the view from heaven
Beats the hell out of mine here
And if we all believe in heaven
Maybe we'll make it through one more year
Down here
You won't be comin' back
And I didn't get to say goodbye (goodbye)
I really wish I got to say goodbye

And I'm sure the view from heaven
Beats the hell out of mine here
And if we all believe in heaven
Maybe we'll make it through one more year
I hope that all is well in heaven (well in heaven)
Cuz it's all shot to hell down here (we need you)
I hope that I find you in heaven
Cuz I'm so...
Lost without you down here

You won't be coming back
And I didn't get to say goodbye (goodbye)
I really wish I got to say gooooodbye
