

## Deep Isolation

Yendri

Just among you is where I walk  
In deep isolation and no one to talk  
I stay alone I don't know anyone of you  
For so long I've been here  
But never I've been near  
To anyone who lives here  
Our worlds are not so different  
But the connection does not exist  
So we go back into loneliness  
And we go on like this  
Just among you is where I walk  
In deep isolation  
For so long I've been here but never I've been near  
In deep isolation in deep isolation  
Just among you is where I walk  
In deep isolation and no one to talk  
I stay alone I don't know anyone of you

For so long I've been here  
But never I've been near  
To anyone who lives here  
Our worlds are not so different  
But the connection does not exist  
So we go back into loneliness  
And we go on like this  
Just among you is where I walk  
In deep isolation  
For so long I've been here but never I've been near  
Deep isolation in deep isolation  
In deep isolation  
Our worlds are not so different  
But the connection does not exist  
So we go back into loneliness  
And we go on like this  
Into loneliness  
And we go on like this  
In deep isolation
