

It Comes Over Me

Yendri

It comes over me and I don't want to be it
With all the hate and all the desperation
It comes over me and I cannot believe it
This seems to be my only destination
I'm so lost and full of hate

And I know it's much too late
There's no chance for enlightenment
This will be my fate
IT comes over me and I can't defend me
The only thing is to surrender now
