

## It Comes Over Me

Yendri

It comes over me and I don't want to be it  
With all the hate and all the desperation  
It comes over me and I cannot believe it  
This seems to be my only destination  
I'm so lost and full of hate

And I know it's much too late  
There's no chance for enlightenment  
This will be my fate  
IT comes over me and I can't defend me  
The only thing is to surrender now
