

Life Is Sad

Yendri

Life is sad I feel it
It drives me mad I can see it
People are bad they show me
in their eyes fulfilled with hate

I am living, I am here
I am hiding from the world in fear

Light has gone I'm lonely
On and on I feel like a zombie
There's no sense I should've known it better
Innocence now doesn't matter

I am drifting far away
Into oblivion
I do not want to stay
