Suck my Life out

Yendri

Suck my life out, use me up
There's no doubt, you'll never stop
Take my energy, plug me in
Tell me what to be
and take my soul within

switch my mind off
wash my brain
You won't let me win
in this game
change my thoughts
with your aims
delete my memory
(now you're in my veins)

Living in the system
part of the machinery
dying for performance
being just an entity
