

The Beast

Yendri

I ask you for forgiveness and you deny
I can't tell you what for
I can't tell you why
It wasn't an accident
It wasn't even me
It was just the beast I once set free
This didn't happen on purpose
This just had to be

It was not about my instinct
It was just the beast I once set free
Give me salvation
And rest at least
You just have to kill the beast
Give me salvation
And rest at least
You just have to kill the beast
