```
You told me to love
You told me to be compassionate
But everybody's acting like an asshole,
Evereybody's acting like a whore
You said hate was wrong
You said we should love another
But everybody's acting like an asshole,
Evereybody's acting like a whore
I would change no more
I would change no more
But everybody's acting like an asshole,
Evereybody's acting like a whore
But everybody, but everybody,
But evereybody's acting like a whore
But everybody, but everybody,
But everybody, but everybody,
You told me to love
You told me to be compassionate
Body, body, body, body
You said hate was wrong
You said we should love another
But everybody... but everybody...
But everybody... but everybody's acting like a whore
But everybody's acting like an asshole,
Evereybody's acting like a whore
But everybody's acting like an asshole,
Evereybody's acting like a whore
But everybody's acting like an asshole,
Evereybody's acting like a whore
But everybody's acting like an asshole,
Evereybody's acting like a whore...
You told me to love
You told me to be compassionate
You said hate was wrong
```

You said we should love another

I would change no more I would change no more...
