

What's Up Ahead

Yeng Constantino

I feel like I can do anything
when you are by my side
Living life with a great light
When it's time to come breaking through
I will find my way to you

What's up ahead it's what we're waiting for
What's up ahead it's what we're waiting for
I guess it's you that I was looking for
Today's the day that I've been living for

And when the rain stops falling down
Don't you worry we would load ourself with good time baby
And watch how my love will never die
It will never die...

What's up ahead it's what we're waiting for
What's up ahead it's what we're waiting for
I guess it's you that I was looking for
today's the day that I've been living for

No matter what happens
We'll always be together
wooh hoo ooo ooh

No matter what happens
We'll always be together
wooh hoo ooo ooh

What's up ahead is what we're waiting for
What's up ahead is what we're waiting for
I guess it's you that I was looking for
today's the day that I've been living for

wooh hoo ooo ooh
wooh hoo ooo ooh
wooh hoo ooo ooh
wooh hoo ooo ooh
