Yes

My eyes see the coming revolution
My eyes see the glory of the world
My eyes see the coming revolution
My eyes see the glory of the world

My eyes see the coming revolution
My eyes see the glory of the world
My eyes see the coming revolution
My eyes see the glory of the world

Looking for the mystery in the woman
Dancing with the teacher in the circle
Watching for the reasons we are going
Getting ready for the big bang
Everybody looking for that great connection
Somebody help me find that universal dream
Everybody watching, is something happening
See what I mean

Looking for the real man
Looking for the teacher
Dancing with the circle
Looking for the real world
Everybody knows where we're going to
Don't forget to leave good footprints behind
Never let the grass grow over your soul
Only time will tell, leave good footprints behind

I have seen the way
The way is clear to save your love
High upon the sky
The forces come to break you free

Forgiving is what you have
Forgiving is what you see
Forgiving is what you know
Forgiving is all you are
I have seen the way
The way is clear beyond your soul

I have seen the way
The way is clear to save your love
High upon the sky
The forces come to break you free
Forgiving is what you have
Forgiving is what you see
They say the soul has so many lifetimes
My eyes see the coming revolution
My eyes see the glory of the world

Only when you stop to listen
Only when you stop to see
Forgiving is what you have
Forgiving is what you see
Forgiving is what you know
Forgiving is all you are
I have seen the way

The way is clear to save your soul
I have seen the way
The way is clear beyond you soul
My eyes see the coming revolution
My eyes see the coming revolution
My eyes see the coming revolution
My eyes see the glory of the world
My eyes see the coming revolution
My eyes see the glory of the world

Don't forget to leave good footprints behind
Don't forget to leave good footprints behind
