

## Go Through This

Yes

Go Through This

You're still living in the dreams of yesterday,  
[We're still living in the dreams of yesterday,]  
Realized from the scenes of yesterday.  
[Reading the signs from the scenes of yesterday.]  
Looking for light of day just all the way  
[Looking for a light to take us all the way]  
You'd think by now we wouldn't go through this  
Go Through This

Looking for a friend with your hand in your pocket  
The secrets that you find with your hand in your pocket  
[The secrets that you find when your looking in a  
pocket]  
No one would like to be alone in a pocket  
Where does it get you?  
You think by now we wouldn't go through this  
Ain't just no disaster if we hit or miss.  
[And it's no disaster if we hit or miss]

Gathering facts just like animals.  
Got to feed our young, like animals.  
Defending all our life source, like animals.  
[Depending on a light source, like animals.]  
Where does it get you?  
You think by now we wouldn't go through this  
Ain't just no disaster if we hit or miss.  
[And it's no disaster if we hit or miss]  
Captured in the year now, like a war for civil rights.  
[Captured in earnest, the water's do right]

Do as they please, atomic disease.  
[Do as they please, a dime a disease.]  
[Who does he please? Atomic disease.]

We're still living in the dreams of yesterday,  
Realized from the scenes of yesterday.  
[Reading the signs from the scenes of yesterday.]  
Looking for light of day just all the way  
[Looking for a light to take us all the way]  
You think by now we wouldn't go through this

Looking for a friend with your hand in your pocket  
The secrets that you find with your hand in your pocket  
[The secrets that you find when your looking in a  
pocket]  
No one would like to be alone in a pocket  
Where does it get you?  
You think by now we wouldn't go through this  
Ain't just no disaster if we hit or miss.  
[And it's no disaster if we hit or miss]  
Captured in the year now, like a war for civil rights.  
(??)  
Do as they please, atomic disease.  
[Do as they please, a dime a disease.]  
[Who does he please? Atomic disease.]
