Jacaranda Help me out tomorrow Jacaranda Don't want to be alone Keep falling over A spell that brings me sorrow Give and take I shouldn't be afraid So you give me this big story It wakes me every day The challenge is to chase the sounds Just to break away And I'm running Running Yes I'm running A simple peace Just can't be found Waste another day Blasting all their lives away I've heard the thunder Underground Tunneling away At the very soul of man And I'm running Yes I'm running I'm running Through a new world There is the heart of millions Seen as a godsend to us There stands our future There can be no denying Simple as A B C D There stands our children's lives All in the sharp step As one together All in all we race As one This time A simple peace Just can't be found Waste another day Blasting all their lives away I've heard the thunder Underground Tunneling away At the very soul of man At the very soul of man And I'm running Running I'm running See through science Part of a back door A door made up of doors To an endless time To a new world Run There in the heart of millions

Seen as a godsend to us There stands our future There can be no denying Simple as A B C D There stands our children's lives All in the sharp step As one together All in all we race As one This time Hear this voice Now and forever This time, brothers in time Is it hard to take Take this coice Is it hard to find Now and forever This fire brothers of fire Hard to find As it kicks so hard Hard to find As it kicks on time As it kicks on time There in the heart of millions Seen as a godsend to us There stands our future There can be no denying Simple as A B C D As it kicks so As it kick so As it kick so There in the heart of millions Seen as a godsend to us All in a sharp step As one together All in all we race as one this time
