## If Only You Knew

I can lift you with my heart Give you meaning every day Cannot live without your truth And be the true me, to be the true you

Pick the flowers from your floor Put them in your arms for you, my love Realize my life and more Say you will and then

Take me home, make me clear It feels so much better Take me home to this heart of hearts

If only you knew You caught me when I was falling Yes, you caught me when I was falling fast

And only you knew You answered me when I was calling you You saw me when I was dreaming you into my life

Everyone who looks at you Sees the loving in your every move You're the healing of the soul To be the true you, to be the true me

I will be your strength all time Ever wishing you this love and more Forever be your guiding song Say you will and then

Take me home, make me clear To feel so much better In this life, in your heart of hearts

If only you knew How you caught me when I was falling Yes, you caught me when I was falling fast

And only you knew You answered me when I was calling you You saw me when I was dreaming you into my life

When I feel the hurt in so many people's lives I take a deep breath and think of your smile, your eyes When I hear the sadness of this earth time Then I take a deep breath and know that you understand That you understand

And only you knew How you caught me when I was falling fast Caught me when I was falling fast

If only you knew How you answered me when I was calling you You saw me when I was dreaming you If only you knew Yes, you caught me when I was falling fast You caught me when I was falling into your life
