

Man in the Moon

Yes

I am the man in the moon
And I hope to shine upon you very soon
Waiting in the night
To bathe you all in moonlight
I am the man
I am the man in the moon

Silently revolving
Wandering through the heavens above
On my own

Round and round and round I go
When I stop no one will know

I am a creature of the night
And I hope to come and shed a little light
Although the universe our teacher
I remain the central feature
I am the man
I am the man in the moon

Round and round and round I go
When I stop no one will know

Silently revolving
Wandering through the heavens above
On my own

I am the man in the moon
