

## Man in the Moon

Yes

I am the man in the moon  
And I hope to shine upon you very soon  
Waiting in the night  
To bathe you all in moonlight  
I am the man  
I am the man in the moon

Silently revolving  
Wandering through the heavens above  
On my own

Round and round and round I go  
When I stop no one will know

I am a creature of the night  
And I hope to come and shed a little light  
Although the universe our teacher  
I remain the central feature  
I am the man  
I am the man in the moon

Round and round and round I go  
When I stop no one will know

Silently revolving  
Wandering through the heavens above  
On my own

I am the man in the moon
