

Never Done Before

Yes

All good will feel the right of way, And music be this act to play

Believers think soon man will turn the key

In the old their summer fails to show

In the young their passion seems to grow

If your love is right the rest is harmony

You can hold love in your hand

You can hold love in you heart

You can hold love like you've never done before

You can hold on to your dreams

Shine your love the way it seems

We are always one as we are one

As we are harmony

You can hold love in your hand

You can hold love in you heart

You can hold love like you've never done before

You can hold on to your dreams

Shine your love the way it seems

We are always one as we are one

As we are harmony

You can hold love in your hand

You can hold love in you heart

You can hold love like you've never done before

You can hold on to...
