You've got a great imagination You carry on in the same old way No lessons learned from yesterday Talk of changes lost in pages of paperwork I believe it... How can we refuse to see I've received it... What could be our final destiny I believe that... Still we go on from day to day Knowing what could be true Wish I knew Wish I knew Wish I knew Open your eyes and discover You're not the only one In disquise Do you wonder When the change is gonna come? Open your eyes You've got a great imagination We cast the world, we set the stage For what could be the darkest age Short exchanges From perfect strangers We'll never know But wish we knew I believe it... It's time to face reality I've received it... Questioning the powers that be I believe it... Are we too confused to see? Wish I knew Wish I knew Wish I knew Wish I knew Open your eyes and discover You're not the only one In disguise Do you wonder When the change is gonna come?
