

Richard

Yes

Richard set to sail the seven seas
With the power held within him he could feel the need
To reach out far and touch on all who came
To the resting place named Overon where he hath been

There you are
Take care my love
I'll be thinking all about you
With the morning stars
There you are
Take care my love
I'll be thinking all about you
With the morning stars

Richard fought the seven wars of old
As around him his foot soldiers cheered with hearts of gold
He rode amongst them shouting for the king
Didn't stop to think of ages past where he hath been

There you are
Take care my love
I'll be thinking of the time we shared
Amid the morning stars
There you are
Take care my love
I'll be thinking of the time we shared
Amid the morning stars

Richard never scaled to higher dreams
If a leader has it in for you, can you succeed
And though his passion kept us all afloat
There's no room for a deciever in the union boat

There you are
Take care my love
I'll singing songs about you
Til the morning, til the morning comes along

Richard dreamt of seeing but believed
In the gathering light a paradise he once concieved
To carry forth along the seven seas
With the light to a tree of Overon he set us free
