

# That, That Is

Yes

[I. TOGETHERNESS (Instrumental)]

[II. CROSSFIRE]

Julie's sick and tired of her job n'all the reasons lately  
She took it out on God and laid her soul to hell and let the baby die  
Julie's child was born without a need or a reason for being  
She took it as a message from a real and a distant life

Shirley gets to help her with the child though she's strung out on crack time  
Shirley never knew what it was to be held in real love  
Together getting high to get to mess up their night  
Anything to get up so they're losing their mind  
Just to get high, breaking out from this life, gotta get them a drug to get higher

Julie gets to walking out and drags the child, says 'come on'  
How we'll walk in the dark of the morning  
Car is screaming round the corner, drugged to heaven, guns are loaded, locked in vengeance

Who shoots the child?

Watching in the ghetto is the spine and the cruel of the gang life  
Sign language of the get go you get in the gang life  
Fear the only law, fear is all we hear about,  
Feed us in the raw, fear is all we fear about,  
Listen, get up, quickly get up, get up  
It's the answer to punishment given you

Don't give us reasons,  
Caught in the crossfire dying  
God give us reasons,  
God get a reason, God give a reason  
Why lay dead a child's life?

[III. THE GIVING THINGS]

That talk is just a worry and a worry in a man  
That life is just a worrying and getting in a mess  
That deal is just awakening his spirit to be giving him  
The pleasure of the giving things within  
This day is of a meeting of the manner to be borne  
And like a ship you come safely to the shore of love eternal

[IV. THAT IS]

That talk is just a worry and a worry in a man  
That life is just a worrying and getting in a mess  
That deal is just awakening his spirit to be giving him  
The pleasure of the giving things within

That word is in it, that talk is in it  
This day is of a meeting of the manner to be borne  
And like a ship you come safely to the shore of love eternal

That beat is of the wanting of the where you're going  
That street talk is the basis of the push and shove  
They never told you that you have the right  
The spirit of the angel, angels sing "Shaava, shava shava-Shaava"

They be waiting for you, they be asking for you  
We depending on you, we depending on your healing of the structure centre  
Until you reach and touch your own redemption

They never give you a reason, they never give you a reason  
They never give you a, give you a, give you a, give you a reason

[V. ALL IN ALL]

All in all the wisdom call, you shall be young, you shall be free  
Watching for the signals that come easily  
Take it as a point of love, a reference place to where you are  
Every step a step to set you free

All for the sake and the calling of light  
Ask as you give, as you measure in time

All in all this will to give, this sacrament, this need to live  
Take it as a step to bring love easily  
All in all the wisdom call, you shall be young, you shall be free  
Waiting for the waiting to be free

Talk is the easy end, everyone heard  
Ask as you seek the clear, ask and you can

This play is of a myriad of conscience sitting  
This day is of a special way of love relating  
This sight is in it, this way is in it, the dream is of the positive to  
make you  
Wonder  
How did heaven begin?  
This time is in it, this thought is in it, this light is in it,  
When you see, you get it

All in all the wisdom call, you shall be young, you shall be free  
Take it as it comes so easily

We'll be there beside the sign, the wherewithal, this will to be,  
Bringing all the love that's meant to be  
All in all we shall be young, we shall be free, we shall be there  
All in all this time is meant to be

[VI. HOW DID HEAVEN BEGIN]

These days are just a worry to the children of the world  
These days are just a worry to the children of the world  
How did heaven begin?  
How did heaven begin?

[VII. AGREE TO AGREE]

Don't imagine any way, so any fool can take away the drugs and the pressure  
Asking for the level where a world divides its answers  
To the gang lords of evil life, they can't show you how  
Look upon this life as just a picture you are painting  
There is a reason for this being  
Look upon this place as just a part of all that is  
It is a spiritual part of being

Live with the power, you can be the strength it is  
Walk among the living, you can be the strength it is  
To give, to live, this hope, comes through,  
It takes the trust to agree this agreement  
Live for the breaking free  
Live for the breaknig freedom  
Just let it come through come through
