

The Revealing Science of God (Dance of the Dawn)

Yes

Dawn of light lying between a silence and sold sources
Chased amid fusions of wonder
In moments hardly seen forgotten
Coloured in pastures of chance dancing leaves cast spells of challenge
Amused but real in thought, we fled from the sea whole

Dawn of thought transferred through moments of days undersearching earth
Revealing corridors of time provoking memories
Disjointed but with purpose
Craving penetrations offer links with the self instructors sharp and tender
love
As we took to the air a picture of distance

Dawn of our power we amuse redescending as fast as misused expression
As only to teach love as to reveal passion chasing late into corners
And we danced from the ocean

Dawn of love sent within us colours of awakening among the many wont to follow
Only tunes of a different age
As the links span our endless caresses for the freedom of life everlasting

Talk to the sunlight caller
Soft summer mover distance mine

Called out a tune but I never saw the face
Heard but not replaced
I ventured to talk but I never lost my place

Cast out a spell rendered for the light of day
Lost in lights array
I ventured to see as the sound began to play

What happened to this song we once knew so well
Signed promise for moments caught within the spell
I must have waited all my life for this
Moment moment

The future poised with the splendour just begun
The light we were as one
And crowded through the curtains of liquid into sun

And for a moment when our world had filled the skies
Magic turned our eyes
To feast on the treasure set for our strange device

What happened to wonders we once knew so well
Did we forget what happened, surely we can tell
We must have waited all our lives for this
Moment moment moment

Starlight movement
Reasons
Release forward
Tallest rainbow
Sun shower seasons
Life flower reasons

They move fast, they tell me
But I just can't believe that I can feel it
There's someone to tell you
Amid the challenge we look around in unison with you

Getting over overhanging trees, let them rape the forest
Thoughts would send our fusion clearly to be home
Getting over wars we do not mean, or so it seems so clearly
Sheltered with our passion clearly to be home

They move fast, they tell me
But I just can't believe they really mean to
There's someone to tell you
And I just can't believe our song will leave you

Skyline teacher
Warland seeker
Send out poison
Cast iron leader

And through the rhythm of moving slowly
Sent through the rhythm work out the story
Move over glory to sons of old fighters past

Young Christians see it from the beginning
Old people feel it, that's what they're saying
Move over glory to sons of old fighters past

They move fast, they tell me
But I just can't believe they really mean to
There's someone to tell you
A course towards a universal season

Getting over overhanging trees, let them rape the forest
They might stand and leave them clearly to be home
Getting over wars they do not mean, we charm the movement suffers
Call out all our memories clearly to be home

We've moved fast, we need love
A part we offer is our only freedom

What happened to this song we once knew so well
Signed promise for moments caught within the spell
We must have waited all our lives for this
Moment moment

Past present movers moments we'll process the future,
But only through Him we know
Send flowered rainbows

A piece apart chased flowers of the dark and lights of songs
To follow and show all we feel for and know of
Cast round

You seekers of the truth accepting that reason will relive
And breathe and hope and chase and love
For you and you and you
