

## Where Will You Be

Yes

Where will you be when you're not here?  
How many lives in this earth time?  
You are my soul and this you are  
Two souls intertwined, that's what we are

We can, we walk, hand in hand all the life  
Be the one, everything to me  
You, I am dreaming  
We have lived and known before I feel it

Where will you lie?

When will I know when you are gone?  
Where I be, and I will miss you?  
We are this love in this life  
Two should intertwined like once before

See this meeting, hand in hand every life  
Be the one, everything to me  
You are my feeling

No need to fear this love of life  
We are the truth of every earth life  
No need to fear this life at all  
We are the sun and everlasting life

Where will you be hearing this song?  
How many lives in this earth time?  
You are my soul and this you are  
You are my soul and this you are

Where will you lie?
