

I'll Be Around

Yo La Tengo

When I stare into your space
I look before you
And I can see you at the times

I'll be around, to make up your thought
I'll be around

Save your kaleidoscope girl
In the doorway
Just look to my world at the times

I'll be around, to make up your thought
I'll be around

Why should I turn from your face?
I'm looking for you
And I still miss you at times

I'll be around, to make up your thought
I'll be around
