

Night Falls on Hoboken

Yo La Tengo

Frightened face
Worried dream
Break my heart
With your sad scream

Sun is down
Spirits low
Hate my impatience
And here I go

Come on, let's leave our misery
And crawl toward where we want to be
Can't we try?
Can't we try?

Come on, sleep one night peacefully
When I'll yawn all day easily
And rest up my mind

Weary guise
Mine the same
Why so worried?
You can't explain

Come on, let's leave our misery
And crawl toward where we want to be
Can't we try?
Can't we try?

Come on, sleep one night peacefully
Then I'll yawn all day easily
