

## Take Care

Yo La Tengo

Take care not to hurt yourself  
Beware of the need for help  
You might need too much  
When people are such

Take care, please  
Take care

Some people read idea books  
And some people have pretty looks  
But if your eyes are wide  
And all words aside

Take care, please  
Take care

This sounds a bit like goodbye  
In a way it is, I guess  
As I leave your side  
I've taken the air

Take care, please  
Take care  
Take care, please  
Take care
