

The Summer

Yo La Tengo

On darkened streets tonight
I see a simple time
I see the warning light
And the summer comes undone
No sorry closing eyes
No cutting down to size
No other thoughts arise
And the summer come undone

On darkened streets tonight
I make a wrong turn right
Take in the lonely sight
And the summer comes undone

And I won't wait
And I won't have to
I just waste me time alone
'Til the summer comes undone
'Til the summer comes undone
'Til the summer comes undone
