You Tore Me Down

Everybody knows That you've been untrue You've gone and broke my heart And made me blue

Turn my head around When you tore me down

If I had a choice I might be sad 'cause when I hear yr voice It makes me glad

Baby's not around But she's leaving town

Baby

Baby Don't run away I want you to stay I'm sorry So sorry I made you blue And now you should be sorry too Should be sorry too

Now I'm so alone Yr far away I sit here at home No words to say

To anyone around 'cause you tore me down

Tore me down Tore me down Tore me down

Yo La Tengo
