

## Moonbike

Yoav

If you feel like you lost yourself  
I will show you the way  
If you feel like you lost your soul a long time ago  
It's just a slow spin down to old dogtown  
The black and white police  
Are everywhere it seems  
But I'm invisible  
And they won't bother me  
No they won't bother me  
If you feel like you lost yourself  
I will show you the way  
If you feel like you lost your soul a long time ago  
It's just a slow spin down to old dogtown  
The mad cats and stray dogs  
Come out the back alleys  
But I'm invisible  
They won't bother me  
I'm ridding on my moonbike  
I'm alive  
I'm riding on my moonbike  
But the road is so icy icy  
The road is so foggy foggy  
The road is so icy icy icy  
If you feel like you lost yourself  
I will show you the way  
If you feel like you lost your soul a long time ago  
It's just a slow spin down to old dogtown  
Slow spin down to old dogtown  
Slow spin down to old dogtown
