

Moonbike

Yoav

If you feel like you lost yourself
I will show you the way
If you feel like you lost your soul a long time ago
It's just a slow spin down to old dogtown
The black and white police
Are everywhere it seems
But I'm invisible
And they won't bother me
No they won't bother me
If you feel like you lost yourself
I will show you the way
If you feel like you lost your soul a long time ago
It's just a slow spin down to old dogtown
The mad cats and stray dogs
Come out the back alleys
But I'm invisible
They won't bother me
I'm ridding on my moonbike
I'm alive
I'm riding on my moonbike
But the road is so icy icy
The road is so foggy foggy
The road is so icy icy icy
If you feel like you lost yourself
I will show you the way
If you feel like you lost your soul a long time ago
It's just a slow spin down to old dogtown
Slow spin down to old dogtown
Slow spin down to old dogtown
