

Lady In Black

Yodelice

Silent howling in the night
I like my satin black
Blacker than the knife
Thrust in my back

Seeking for a beam of light
In this city of haste
My life cast aside
As toxic waste

Silk and flowers
Ripped of my flesh

Betrayal and sadness
Booming in my chest
Stumbling in my best dress
On Lowest Wacker drive

Unseen and forsaken
One lost Puerto Rican
My heart and heels broken
On Lowest Wacker Drive

Silent howling in the night
I like my satin black
Blacker than the knife
Trust in my back

Seeking for a beam of light
In this city of haste
My life cast aside
As toxic waste

Silk and flowers
Ripped of my flesh

The past is filming over
Memories foam and lather
Your words melt in my tears
On Lowest Wacker Drive

I've loved and I've seen
The price of self-esteem
Ta daring, the loathing
On Lowest Wacker Drive

Silent howling in the night
I like my satin black
Blacker than the knife
Trust in my back

Seeking for a beam of light
In this city of haste
My life cast aside
As toxic waste

Silk and flowers
Ripped of my flesh

Rolling under my feet
The tarmac cries and weeps
Your heat is my call sheet
On Lowest Wacker Drive
