

My Blood Is Burning

Yodelice

Walk , stomping my feet on dirty ground
Listen for a familiar sound
Wonderin' if someone is around
Night, covers my body it surrounds
Shadows appear from all around
Glad that there's no one that's around

My blood is burning, la la la la la
The fight is so nice, la la la la la
The pain feels just right, la la la la la
Yeah, yeah, yeah, oh

Move, this place isn't big enough for two
I stretch and reach for something else for you
Fly, I'm going to escape this no end town
Leaving me solid and unfound
Glad that there's no one that's around

My blood is burning, la la la la la
The fight is so nice, la la la la la
The pain feels just right, la la la la la
Yeah, yeah, yeah, oh
