

The Other Side

Yodelice

Ask me where I'm going to
Coz I'm not going back
Ask me where I'm coming from
I've burried all my tracks

The other side is on my side

Ask me while I'll give you black
I can't see in the dark
Give me night I'll love you back
I do not feed the sharks

The other side is on my side
The other side is on my side

Watch me smile and bite the dust
You're healing in my pain
Walk a mile, fly if you must
You know we'll meet again

The other side is on my side
The other side is on my side

Walk a mile, fly if you must
You know we'll meet again
Watch me smile and bite the dust
You're healing in my pain

The other side is on my side
The other side is on my side

Give me night I'll love you back
I do not feed the sharks
Watch me smile and bite the dust
You're healing in my pain

The other side is on my side

Ask me where I'm coming from
I've burried all my tracks
Ask me where I'm going to
Coz I'm not going back
