## **Together We Stand Alone**

YOHIO

That pretty face has made you weak and I guess that leaves me to be the one to set you free You wanna break me? Go ahead! I'l just bend and bounce right back right in your face

Pray for mercy cause you're bound to fall We'll be the ones to roll the dice

In the end it's always up to you if you will drown or make it through Life is yours to live
This world is trying to break down all of the things that make you frown Don't you let them win

TOGETHER WE STAND ALONE

So try to stop us if you dare
Our revolution is for the ones who doesn't care
You stabbed our backs a time or two
now our retribution strikes down on you

This time you will have to pay... the price Our paradise is your demise

In the end it's always up to you
If you will drown or make it through
Life is yours to live
This world is trying to break down
all of the things that make you frown
Don't you let them win

TOGETHER WE STAND ALONE

In the end it's always up to you
If you try to make it through
Life is yours to live
This world is trying to break down
all of the things that make you frown
don't you let them win

TOGETHER WE STAND ALONE x3
