

## It Happened

Yoko Ono

It happened at a time of my life when I least expected,  
It happened at a time of my life when I least expected,  
I don't even remember how it happened,  
I don't even remember the day it happened.  
But it happened,  
Yes, it happened,  
Ooh, it happened,  
And I know there's no return, no way.
