

## Be Still

Yolanda Adams

Slow down come closer...  
It's been a long time since we  
Gotten together like this  
And I really miss you  
Told you you could talk to me  
But it's easy for you I see  
For you to rush and get in a hurry  
To be anxious and to worry  
Instead I'm coming to lead  
And remaining in my safety  
You'd rather do it all yourself  
But you know you need my help

Be still,... just be still and know  
Be still, I will never leave your side  
I will never need you cry  
You've got your own  
I already know, oh yeah  
Cause I have to make mine,  
I don't wanna see you cry  
Give you hope and piece of mine,  
You must be still  
Your best is in my hands, your success is in my plan  
Pretending as I speak to you, in restfulness I keep you  
I wash the fears away so God can never stay  
When I stand strong in you, I give you power to bring you back  
You never take your time out,  
Sit in silence and to mind out  
I've always been right here, waiting for you to come near me  
Be still,... just be still and know  
Be still, I will never leave your side  
I will never make you cry  
You've got your own  
I already know, oh yeah  
Cause I have to make you mine  
I don't wanna see you cry  
Give you hope and piece of mine,  
You must be still  
So hold, hold on, to my hand  
And rest in my arms, and hear, hear ya  
Hear the... voice saying to you can make it  
I'll never let you down so  
Be still,... just be still and know  
Be still, I will never leave your side  
I will never make you cry  
You've got your own  
I already know, oh yeah  
Cause I have to make you mine  
I don't wanna see you cry  
Give you hope and piece of mind,  
You must be still  
Be still,... just be still and know  
Be still, I will never make you cry  
I will never leave your side  
You've got your own  
I already know, oh yeah  
Cause I have to make you cry,

I don't wanna see you cry  
Give you hope and piece of mind,  
You must be still  
I will never leave you,  
I will never leave your side,  
I will never make you cry...
