

Come to Me

Yolanda Adams

If you call, I will answer
The cares of this life
Have drained you dry
It's gotten serious almost disastrous
Deceptions and lies
You've overcome by despair
Trying to find the answer everywhere
Running to and fro asking everyone you know

Come to me when the world is on your shoulder
Come to me guarantee to take it over
There's nothing too hard
No impossibility if you come to me

Crisis of the heart, no it doesn't matter
I am your solutions, though it seems too big
Pursuits and promises
All of your addictions
I will inter vain,
You're overcome by the feeling of despair
Trying to find the answer everywhere
Running to and fro asking everyone you know

Come to me when the world is on your shoulder
Come to me guarantee to take it over
There's nothing too hard
No impossibility if you come to me

And all your battles I'll gladly fight
Your touch of hope I'm will to fight
I'll leave you alone
Nor forsake you if you would call

Just come to me
When the world is on your shoulder
Come to me yea yea yea yea
I am guarantee to take it over
Come to me when your ,
When your struggles and your tests
Lay them down that I will do what I'll do best
That I am your God
There's nothing too hard
No impossibilities if you come to me
