

Living Proof

Yolanda Adams

We are, we are, we are living proof
We are we are, we are living proof
We are we are, we are living proof
Our God, God is Greater

He's greater than the universes he put in the sky
He's greater than the birds that go flying by
He created all things, so we can't just deny, that our
God, God is greater

Greater than any problem you or I can have
Greater than anything that may come to pass
Greater than our trials or our circumstances
God is God is Greater.

So go ahead get excited, let the world know
The greater One lives in you, now it's time to show
His love is everlasting and it overflows
Our God, God is greater

I am living proof
I am living proof
I am living proof
We are living proof
We are living proof
We are living proof

We are, we are, we are living proof
We are we are, we are living proof
We are we are, we are living proof
