

## In Too Deep

YONAS

Straight from the boogie down Bronx  
If you act stupid then you fittin' to get stomped  
Hip Hop started in my borough  
Now I'm bringin' it back to get it on

Livin' this life until it's gone  
When you see me know you lookin at a Don  
Shine so bright when I write these songs  
I overshadow five cracker niggas like a bomb

Blame it on the way that I was born  
Middle of the hood in a middle class home  
In the middle of the streets in the middle of the beef  
Where niggas hold heat with they fitted caps on

I'm a king I could never be a pawn  
Hard to find like a lizard in a storm  
Trust in God but I'm living in the wrong  
Life is hectic but I'm living in the calm

I speak what I live and you love what I speak  
Cause I'm keeping the community informed  
How can there be peace in a world full of hate  
Most people can't even get along

There's a difference in religion and a difference in opinion  
All my people in the prison stay strong  
If you're in too deep and you know how I feel  
Put your pickets on the white house lawn

Hip Hop in the building  
If you feel me put your hands before ya  
If you know what it's like to go to jail  
And be dealing with lawyers

If you feel what I'm saying  
Put your hands up, it's a role call  
Police and politicians  
Know that they can't hold ya'll

Emcee lyrically performing miracles  
Ya'll can't mimic me, please  
If you roamin' with the bees then you fittin' to do get stung  
That's a price cause living ain't free

Ladies show ya hands if ya all fed up  
Cause ya man ain't payin for his seed  
Now he lookin at the child that he made out of greed  
And the nigga can't handle what he sees

You're in too deep if you wanna look fly  
So you kill another nigga for his jeans  
Or if you're white and you don't like blacks  
So you hang a noose from a school tree

I gotta keep it real till I can't breathe  
And I'm learnin' not to fear death

So much to the point I could walk through a room  
Of flying bullets with a bear chest

Gotta keep it true for the dudes in orange jumpsuits  
Scooped by the boys in blue  
Every city that I rock every show that I do  
I'm a make some noise some for you (2x)

Hip Hop in the building  
If you feel me put your hands before ya  
If you know what it's like to go to jail  
And be dealing with lawyers

If you feel what I'm saying  
Put your hands up, it's a role call  
Police and politicians  
Know that they can't hold ya'll

How many know what it's like  
To not see the sky for a couple of years?  
Thinkin' bout the issues got a nigga goin crazy  
With a tissue and a bucket of tears

Bugging and I'm wild  
And they lovin my style  
That's why I'm the government's fear  
I make music felt by your hearts and soul as soon as it touches ya ears

I'm a renegade never been afraid  
To say what's going on from day to day  
And I'm no teddy bear nor do I rock a scarf  
Cause I'm sharp like a razor blade

And we go crazy in the hood  
Instead of 9 to 5 we work that 8 to 8  
And then we're hopping on a train  
If I had gas money I would drive for days and days

Just so I could escape the pain  
Just so I could escape the rain  
I feel like everything around me  
Is never ever going to change

I'll be the lightness in the dark  
Protect my people from the sharks  
And if you're trying to find a movement  
Look no further, get it started

Hip Hop in the building  
If you feel me put your hands before ya  
If you know what it's like to go to jail  
And be dealing with lawyers

If you feel what I'm saying  
Put your hands up, it's a role call  
Police and politicians  
Know that they can't hold ya'll
