Living In The Sky

YONAS

I remember how you counted me out, and you said I couldn't do i
t
Now I'm number one with a bullet
My head up in the clouds like I'm living in the sky
Me head up in the clouds like I'm living in the sky
I remember how you said, I ain't shit, and I'm never gonna make
 it
Now I'm on, I know you can't take it
My head up in the clouds like I'm living in the sky
Me head up in the clouds like I'm living in the sky

Come toast a cup with us, life is on the up and up
Tearing down stages in my ray bans... button ups
Now half the nation on a pace to come fuck with us
My rhymes are like museum exhibits you can't touch this stuff
Never got a chance to chose how my life began
But best believe I'm the author of how my life'll end
Reality is tough be careful when you pretend
And the world's forever shady be careful who you befriend
Now days seems we've lost moral value
The more promiscuous you are the more they wanna crowd you
And when you're on the ground everybody wanna doubt you
Then you hit the sky everybody claims they found you
Other rappers tell you get the dollar get the cream
I'll show you how to turn that fuckin dollar to a dream
Just park that damn bently on the side and quit your crying
Cause real humble niggas get to flyin'

I remember how you counted me out, and you said I couldn't do i
t
Now I'm number one with a bullet
My head up in the clouds like I'm living in the sky
Me head up in the clouds like I'm living in the sky
I remember how you said, I ain't shit, and I'm never gonna make
 it
Now I'm on, I know you can't take it
My head up in the clouds like I'm living in the sky
Me head up in the clouds like I'm living in the sky
