

## Peace Of Mind

Yonder Mountain String Band

You and I headed straight into the west  
Sun is rising behind we're heading straight into the darkness  
And it's been so long since I've seen you  
But I'm forced to stare at these lines  
That are laid out here before me  
Say you love me give me peace of mind

Straight into the darkness headed you and I  
Straight into the darkness further into the night  
But at least you are here with me  
We're here together side by side  
Straight into the darkness headed you and I  
Time is running fast another hour come and gone

Plenty of road ahead behind the mornings coming on  
I can feel you sleeping beside me  
But I'm forced to stare at these lines  
While you toss and turn and you dreaming  
Say you love me give me such peace of mind

Later in the afternoon and the sun is setting low  
Way to home is mind in the middle of the pine trees and the snow  
You wish to speak to me darling I love you best  
You're never far from me even when in the old darkness  
And it's been so long since I've seen you  
Now I'm racing home to be by your side  
While you bend out here before me  
Got me home dear give me such peace of mind
